

# Kaneland IMSA Fusion

## 2015-2016

“By design, the IMSA Fusion curriculum is inquiry based, problem centered and integrative. The learning experiences focus on helping students "learn how to learn" and emphasize logic, mathematical thinking and experimental scientific thinking. Topics relate to the students' lives, thereby arousing their curiosity and increasing their motivation to learn in mathematics and science. Teachers from each participating school are supported with on-going professional development for the delivery of the curriculum and use of appropriate pedagogy. “

**For the 2015-16 school year, Kaneland students can participate in the IMSA Fusion after school program being held at Harter Middle School. The price of participation is \$200.00 and runs from 3:00-4:45 for 6th-8th grade and 5:00-6:45 for grades 4th and 5th. Classes run from September through April. Each session will be led facilitated by an IMSA-trained Kaneland employee. Classes are held on Monday and Thursday nights. Please see the attached pages for specific dates of attendance and enrollment forms.**
